## DETAILED ACTION

### *Specification*

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: at least one of the fingers being metallic as recited in claim 1 is not supported in the original disclosure which recites that one of the fingers is metallic and the other is plastic. Hence the claim has a condition that both fingers are metallic which is not supported in the original disclosure. As a further point, being metallic does not mean that the finger will be attracted to the magnet since the finger could be aluminum which is not magnetic. Clarification is requested.

This application is in condition for allowance except for the following formal matters:  
as stated above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
